Portfolio: <https://georgempetre.github.io> | LinkedIn: <https://www.linkedin.com/in/george-petre-b91428265/>

Profile

QA Engineer with hands-on experience testing web applications across UI, API, and performance layers. Focused on real user behaviour, clean test design, and clear reporting. Experienced with Selenium, PyTest, Postman, and Apache JMeter, with a practical approach to both manual and automated testing.

Skills

Manual testing, UI automation, API testing, performance testing, test planning and execution, bug reporting, regression testing, cross-browser testing.

Technical Stack

Selenium WebDriver, PyTest, Postman, Apache JMeter, Python, GitHub Actions, Jenkins, SQL, Grafana, Windows, Chrome, Firefox, Edge.

Experience

QA Engineer – OpenCart Full Testing Project (Independent Project, 2025)

Designed and executed a full testing cycle covering UI, admin panel, API, and performance testing. Built automation frameworks, executed performance tests, and documented system behaviour and limits.

Previous Experience

Bar Manager – The Jack's Piano (2007–2015)

Machine Operator – Sharpak, Aylesham (2016–2022)

Self-Employed – Freelance testing and continuous self-learning (2020–present)

Certifications

ISTQB Foundation Level, Python OOP (Cisco), Java Fundamentals, SQL Fundamentals, HTML & CSS Fundamentals

Education

Open Study College (2023–2024), SDA Academy (2022–2023), Ion I.C. Brasov Technical College (1993–1997)

Languages

English (Fluent), Romanian (Native)

Additional Information

Right to work in the UK | Full UK driving licence (Category B)
